

We are hiring – experienced Electrician(s)

27 October 2021

East Green Energy is a leading Renewable Energy Installer and general electrical contracting business working in both the commercial and residential markets. Due to continued expansion, we are seeking an installation electrician working on projects around the East of England.

Our ideal candidate will live in East Anglia and be based out of our Suffolk office, have an extreme high standard of work and attention to detail.

What you will need:

- Minimum 5 years of residential & commercial electrical experience.
- 18th Edition wiring regulations.
- Testing and inspection City and Guilds.
- CSCS card.
- Clean Driving license.
- Excellent timekeeping.
- Good customer service skills.
- Trustworthy.
- Ability to work with minimum supervision.
- Able to work on your own initiative prioritising work accordingly.
- Be able to join flexible and positive 'can do' attitude team.
- Your own general tools.
- Ideally experience installing Solar PV & Energy Storage.

In return we offer:

- £38,000 per annum + discretionary signing on bonus subject to experience.
- Company van with fuel card.
- 20 days holiday plus bank holidays.
- Workplace pension scheme.
- Opportunity to join a fast-growing well-established company working at the front end of innovation.

This is a Full-time, Permanent position with site working hours 8.00am – 5pm Monday – Friday with opportunity for overtime.

Please apply in the first instance by emailing your CV with covering details of what you can offer to both danh@eastgreenenergy.co.uk / info@eastgreenenergy.co.uk
